

Microsoft Windows **WINDOWS INSTRUCTIONS**

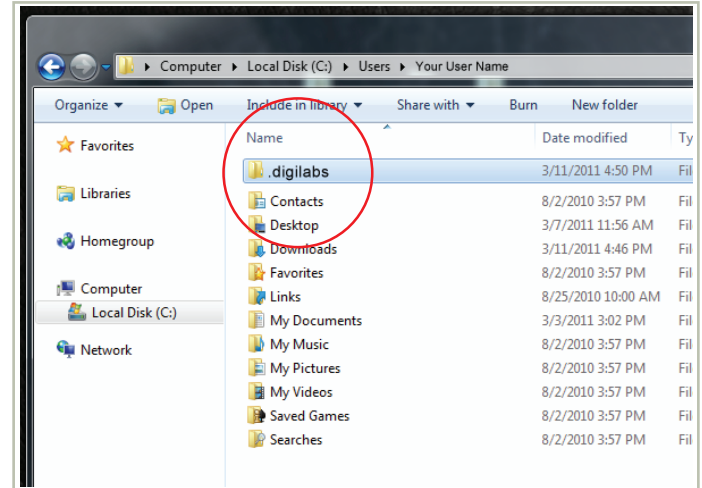

Thank you for downloading I CAN DO IT Photobook and Calendar creation software. If you have a previously installed version of My Photo Creations or I CAN DO IT, go to step 1. If not, skip to step 2.

A. UNINSTALL:

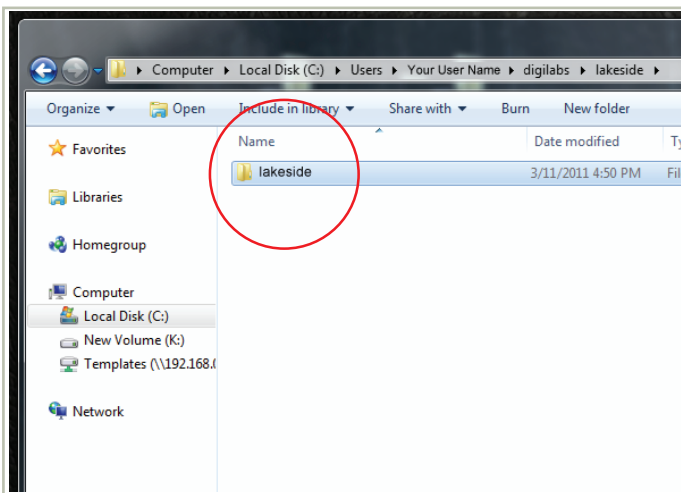

1. You will need to delete some data files. First, go to **Your User Name** folder in the Users folder on your Local Disk (C drive by default).

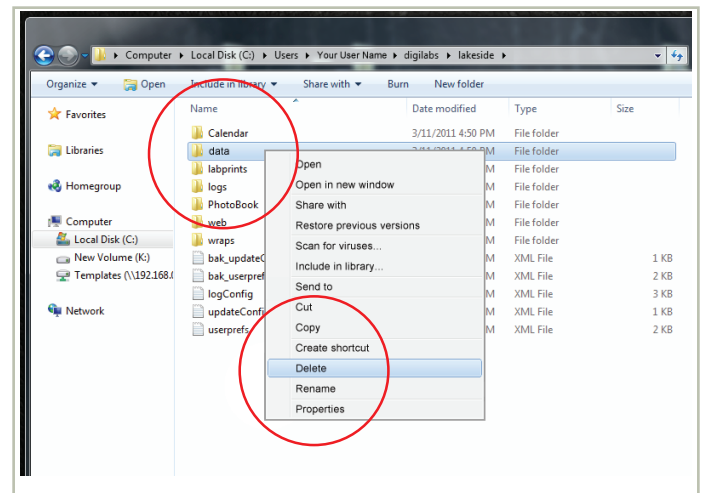

2. Find and open the **.digilabs** folder. In Windows Vista, this folder is directly in the **Your User Name** folder. If you have Windows XP, this will be inside the Documents and Settings folder.

3. Now open the **lakeside** folder.

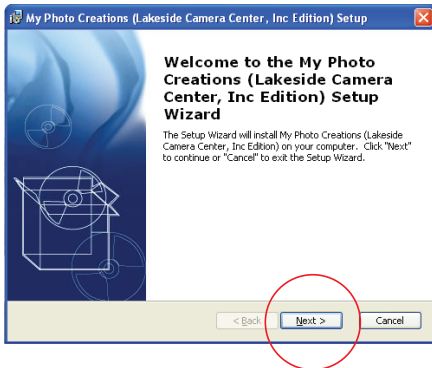

4. Right-click the **data** folder and select DELETE. You are now ready to install the updated version. Continue to step B. INSTALL

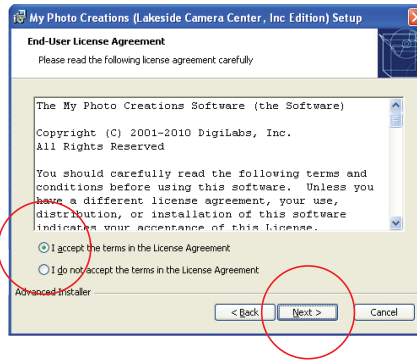

B. INSTALL:

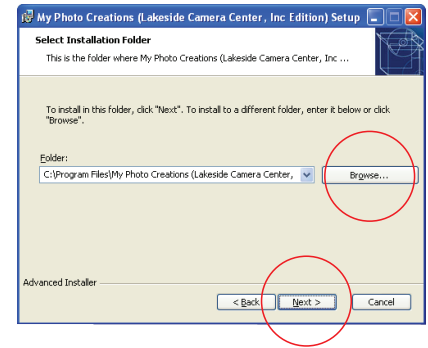

1. Simply double-click the I CAN DO IT.exe file. The Install Wizard will appear. Click **Next** to begin the installation.

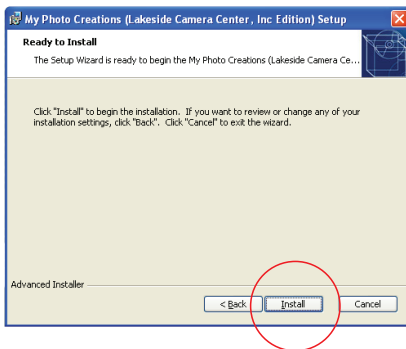

2. Please read the End-User License Agreement and when finished, click "I accept the End-User Agreement". Then click **Next**.

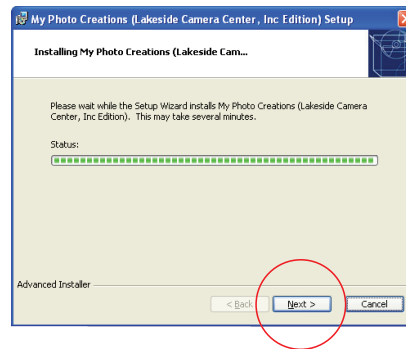

3. Now choose where you would like to install the application. The default location is "Drive: C:\Program Files\". Click **Browse** to choose your own location. Then click **Next**.

4. The application is now ready to install. Click **Install**.

5. Now wait briefly while the Install Wizard installs the application. This may take several minutes. Click **Next** once the installation is complete.

6. I CAN DO IT is now installed. You can select "Launch My Photo Creations..." or wait to begin at a later time. Click **Finish**. You are now ready to begin your project.
